The Director of Public Health,

Madras.

Sir,

In G.O.No.1059 P.H., dated 14th May 1928 Government passed orders on the question of the free distribution of quinine in specially malarial tracts in the Presidency. Under this G.O. quinine will be distributed free only in the Taluks of Puttur and Karkal of this District. There are, however, some very malarial villages in the Coondapoor and Kasargod Taluks of this District inhabited by poor persons and which require a free supply. My predecessor therefore addressed the Board and obtained sanction for the purchase of Rs.50/- worth of quinine from the allotment under the Collector's Discretionary Grant for 1928-1929 and supplied

quinine in July 1928. In G.O.No.2319 P.H., dated 3rd November 1928, the Government have sanctioned the continuance of the scheme for a further period of one year from 1st April 1929. At the recent Jamabandi of the Coondapoor Taluk for fasli 1338, one Karnam represented to me the necessity for the free supply of quinine for his village. As the villages named in the appendix are very malarial, I think it is essential to bring them under the scheme and accordingly recommend that the Government may be pleased to extend the scheme to these villages also.

Your obedient servant,

For Collector.

Note. In G.O. No. 2319 P.H of 3.11.28, the scheme of free distribution of quinine was not extended to areas outside those mentioned in G.O. 1059 P.H of 14.5.28. The period of its working only was extended for a year to enable the Govt to judge the results of the scheme. Under para 20 of G.O. No. 1059 P.H of 14.5.28, the question of extending the scheme to other areas can be considered only after experience of has been gained of its working in the areas selected. Draft above is therefore for approval.
